

TModelMetabolite::range

```
graph LR; A[TModelMetabolite::range] --> B[TModelMetabolite::getBottomValue];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'TModelMetabolite::range'. The right box is gray with a black border and contains the text 'TModelMetabolite::getBottomValue' on two lines.

TModelMetabolite::getBottom  
Value
